CHRYSANTHEMUMS

1932

FROM
W. E. SPAFFORD

*Barker, Niagara County
New York*

To Our Patrons

THIS 1932 price list contains the descriptions of over one hundred and fifty varieties of Mums, Pompons, Anemones and Singles.

We grew about 90,000 plants in the field this past summer from which to take cuttings. Cuttings from field-grown plants are much stronger, and less susceptible to disease than those taken from plants that have produced flowers.

Every cutting sent out by us is guaranteed to be first-class in every respect. Any shipment that does not prove to be of satisfactory quality should be returned, and any money that has been paid will be gladly refunded. Complaints must be made immediately upon receipt of shipment in order that a satisfactory adjustment may be made.

Prices quoted in this list are for rooted cuttings. Strong, well-rooted cuttings, properly packed, will usually give better satisfaction than potted stock. We sell 25 at the hundred rates, and 250 of any one variety at the thousand rates. Special discount on orders of 5,000 or more.

We acknowledge every order the same day that it is received. Orders are accepted subject to our ability to produce sufficient stock to meet the demand. Please give complete shipping instructions. Otherwise we will exercise our best judgment in choosing the method of forwarding the shipments.

W. E. SPAFFORD.

Terms of Sale

Orders from unknown parties must be accompanied by cash or satisfactory references.

We agree to furnish good stock, well packed, and deliver same to Express Company or Post Office, after which all stock must travel at buyer's risk.

While we exercise great care to keep plants true to name, we give no warranty, expressed or implied, nor can we be responsible in any way for the crop, either as to variety or product.

Two per cent. discount for cash with order. No other discount will be allowed. All bills are due on the first day of the month following the date of shipment.

W. E. SPAFFORD,
Barker, N. Y.

Best Commercial Varieties

To assist the grower with his planting plans, we are listing, what we consider to be, the most profitable varieties, according to blooming dates.

It must be understood that there may be variations in these flowering dates, depending entirely under what conditions the plants are grown.

YELLOW

Yellow Frost -----	Aug. 15	Richmond -----	Nov. 5
Gold Lode -----	Oct. 10	Marie De Petris -----	Nov. 15

Clorinda -----	Nov. 25		

Early

CELESTRA. A round golden yellow that closely follows Gold Lode. Has rigid stem and fine foliage. Five feet tall from early June planting. Blooms October 10th. Late crown or terminal bud.

CHRYSOLORA. Fine incurved form with perfect stem and foliage. Height, four feet. Matures October 15th. Select bud August 15th.

DETROIT NEWS. In normal season this variety matures October 25th, and is the best bronze at that season. It first develops as

- an incurved, showing its golden reverse, then gradually reflexes, presenting more of the bronze tone. Date of bud August 30th.
- EARLY FROST. One of the most valuable white varieties. Can be had from first early to latest, according to planting date. Take early bud.
- GOLD LODGE. A fine golden yellow that blooms the first week in October. A seedling from Comoleta, but twice as large and ten days earlier. Five feet from June planting. Take bud the last week in August.
- GOLDEN GLOW. Bright yellow with good stem and foliage. Height, three and one-half feet. Date of bud July 10th.
- GOLDEN QUEEN. One of the best yellow incurved. Double from any bud. Date of bud August 10th.
- GOLDEN WAVE. Decidedly incurved in form. Brighter yellow than Richmond. Matures October 20th. Six inches in diameter. Select bud September 5th.
- HILDA BERGEN. The color is a rich mahogany bronze. Matures late in October. It comes strongly recommended as being 100% perfect in every way. Date of bud about September 5th.
- INDIANOLA. The color is a wonderful combination of old gold and bronze. Take bud the last week in August. Blooms the first week in October. Four feet from June planting.
- IMPROVED GOLDEN GLOW. A much better color than Golden Glow. Height, three and one-half feet. Date of bud July 10th.
- JUSTRITE. Belongs to the Chieftain type of bloom. Somewhat larger and better in color, and blooms three weeks earlier than that variety. Four feet from June planting. Blooms October 15th. Terminal bud.
- LUSTRE. A fine lavender pink companion for Quaker Maid and Gold Lode. Plant early and take bud the last week in August. Blooms the first week in October.
- MRS. H. E. KIDDER. An early bright yellow that produces flowers seven inches in diameter. Very stiff upright stems four feet from June planting. Blooms October 15th. Date of bud August 25th.
- OCONTO. Early white, producing large blooms on strong, upright stems. Height, four feet. Date of bud August 10th.
- QUAKER MAID. Large glistening white of mid-season size. Blooms the first week in October. Five feet from early June planting. Take bud the last week in August.
- ROSE CHOCHARD. An excellent early rose pink. Matures October 20th. Take early September bud.

Celestra

- ROSE GLORY. A bright lavender pink to cut with Justrite and Celestra. Good stem and foliage. Five feet tall from June planting. Take terminal bud for best color.
- ROSE MARIE. A very pleasing shade of pink much the same as Smith's Enchantress. Buds reserved the 5th to 15th of August are ready to cut by the end of September. Five and one-half inches in diameter, and five feet tall from May 20th planting.
- SILVER SHEEN. Pure white of incurved form. Matures October 20th. Has wonderful keeping qualities. Date of bud August 30th.
- SMITH'S ENCHANTRESS. While this variety is not as early as Golden Glow or Smith's Advance, it is ready to cut October 7th. Bright rose pink of a very even shade. Early September bud.
- SUNGLOW. Bright yellow of Bonnaffon type, producing a high percentage of perfect blooms. Height, three and one-half feet. Date of bud August 15th.
- WHITE CHIEF. A splendid white to follow Quaker Maid. Blooms October 18th from terminal bud. Four feet from early June planting.
- WOOLF'S PINK. A flower similar to that of Dr. Enguehard in color and form. Matures October 10th from buds selected August 20th. Height, three and one-half feet.
- YELLOW FROST. A clear yellow sport of Early Frost. Should be grown similarly.

Rooted Cuttings, \$3.00 per hundred; \$25.00 per thousand.
250 of one variety at the thousand rate.

Mid-Season

- BETSEY ROSS. Finest white of incurved form. Height, four feet. Date of bud August 25th. Matures November 5th.
- CHAS. RAGER. An excellent pure white of incurved form. Height, four feet. Date of bud August 30th.
- CITRONELLE. One of the best incurved yellows. Matures November 1st. Terminal bud.
- CORONNA. A deep golden yellow. Blooms November 1st. Late crown or terminal bud.
- DISTINCTION. A fine commercial pink that comes into flower after the heavy mid-season cut is past and before Thanksgiving Pink is ready. Terminal bud.
- GOLDEN BRONZE. Produces large spreading flowers of a wonderful shade of golden bronze. Five feet tall from June planting.

Indianola

- Take terminal bud for best color. Earlier buds come lighter. Blooms October 25th to November 1st.
- GOLDEN MEASURE. A fine commercial yellow of unusual size. Incurved form and fine finish. Use terminal bud for commercial cutting, but it can be grown to exhibition size from late crown bud. Matures last week in October.
- RICHMOND. Unsurpassed among commercials. Bright golden yellow of silk-like finish. Date of bud August 25th.
- ROMAN GOLD. An intense yellow with perfect stem and foliage. Shows a bronze tint from late buds. Height, four feet. Matures November 1st to 10th. Date of bud September 10th.
- ROSE PERFECTION. A seedling from Chieftain, but is brighter and more constant in color. Matures November 1st. Date of bud September 10th.
- SNOW WHITE. Pure white of incurved form. Blooms November 1st. Four feet from June planting. Terminal bud.
- TIGER. An excellent bright yellow that is always double regardless of planting date or when bud is selected. Height, three and one-half feet. Date of bud September 5th.
- WHITE CHIEFTAIN. A pure white sport of Chieftain. Date of bud August 30th.
- MRS. WM. H. WAITE. A brilliant combination of scarlet and gold. Grows four feet from early cuttings. Date of bud August 15th.
- YELLOW RAGER. A light yellow sport from the variety Chas. Rager. Date of bud August 30th.

Rooted cuttings, \$3.00 per hundred; \$25.00 per thousand.
250 of one variety at the thousand rate.

Late

- ANDREW SCHMIDT. Rose pink sport of E. A. Seidewitz. Fine incurved form. Date of bud September 20th. Matures from Thanksgiving to early December.
- CELEBRATION. Sport of Yellow Eaton. Fine for Thanksgiving. Height, four feet. Date of bud September 10th.
- CLARA B. FORD. A closely incurved yellow much the same in form and color as Major Bonaffon. Matures November 20th. Date of bud September 20th.
- DECEMBER GLORY. Petals incurved throughout forming a perfectly spherical flower six inches in diameter. Matures December 1st to 10th. Date of bud September 30th.

Gold Lode

- DR. ENGUEHARD. Bright rose pink. Double from either bud. Date of bud September 5th.
- E. A. SEIDEWITZ. A beautiful bright pink. Height, five feet. Matures from Thanksgiving to early December. Date of bud September 20th.
- FRIENDLY RIVAL. The introducers consider this to be the finest yellow that they have ever produced. Of large size, with good stem and foliage. Blooms Thanksgiving and later. It is the brightest yellow of its season. Date of bud September 10th.
- GLADYS PEARSON. A new shade for Thanksgiving use. The upper surface of the petals is apricot, and the reverse buff, which illuminates under artificial light to bright orange. Matures November 20th to 25th. Date of bud September 30th.
- GLENVIEW. A beautiful incurved bronze for Thanksgiving. Date of bud September 10th.
- GOLDEN CELEBRATION. The same form of flower as Timothy Eaton, with the color of Golden Wedding. A wonderful Thanksgiving variety. Date of bud September 10th.
- GOLDEN MISTLETOE. A bright yellow sport from Mistletoe. Date of bud September 30th.
- GOLDEN PEARSON. A clear yellow sport of Gladys Pearson. Matures November 25th. Date of bud September 30th.
- HARVARD. Very dark crimson of reflexed form. Blooms November 15th and later. Date of bud September 30th.
- MAJOR BONNAFFON. An excellent yellow incurved. It is probably grown in larger quantities than any other variety. Date of bud September 30th.
- MARGARET GRAHAM. A beautiful incurved, broad-petaled bloom of purest white. Has rigid stem and fine foliage. Four feet from June planting. Blooms November 20th. Terminal bud.
- MARIE DE PETRIS. Large, intense golden yellow of incurved form. Strong grower and mildew-proof. The individual blooms are 20 to 22 inches in circumference. Date of bud September 5th. Matures November 15th. Stock limited.
- MERIDA. A late yellow, shading to orange. Matures November 20th and later. Date of bud September 25th to 30th.
- MRS. NELLIE T. ROSS. Light yellow, possibly a shade lighter than Bonnaffon. Its late flowering period, November 30th into December, greatly enhances its value. Date of bud, early October.
- MRS. R. M. CALKINS. A bright yellow as intense as the variety Marigold. An improved Golden Chadwick, but is brighter in color and more globular in form. Matures November 20th to 30th. Date of bud September 20th.

Friendly Rival

PINK MISTLETOE. A pink sport of Mistletoe. May be had for Christmas by planting the end of July or the 1st of August. Date of bud September 30th.

SUNGOLD. A bright, late yellow seedling from Sunbeam. Has strong, upright growth, and will produce two six-inch flowers to the plant. Matures November 30th and later. Date of bud September 30th.

THANKSGIVING PINK. The best pink to grow for Thanksgiving. Strong grower. Terminal bud.

TOWANTIC. A pure white to follow White Surprise. Matures for Thanksgiving and later. Do not reserve bud before September 15th.

WHITE SURPRISE. This variety will, undoubtedly, hold the same exalted place among the Thanksgiving whites that Betsey Ross does among the mid-season. Date of bud September 20th.

WHITTIER. An elegant late yellow, producing few, if any, cull blooms. Date of bud September 10th.

WILLIAM TURNER. An incurved of purest white. Fine form and strong grower. Date of bud August 30th.

YELLOW TURNER. Light yellow sport of William Turner. Date of bud August 30th.

Rooted cuttings, \$3.00 per hundred; \$25.00 per thousand.
250 of one variety at the thousand rate.

Pompons

ADIRONDA. The best early, golden bronze. Matures October 15th.

ALECIA. In color, it somewhat resembles Frank Wilcox, but is nearer the true pompon type in form. Height, three feet. Matures the end of October.

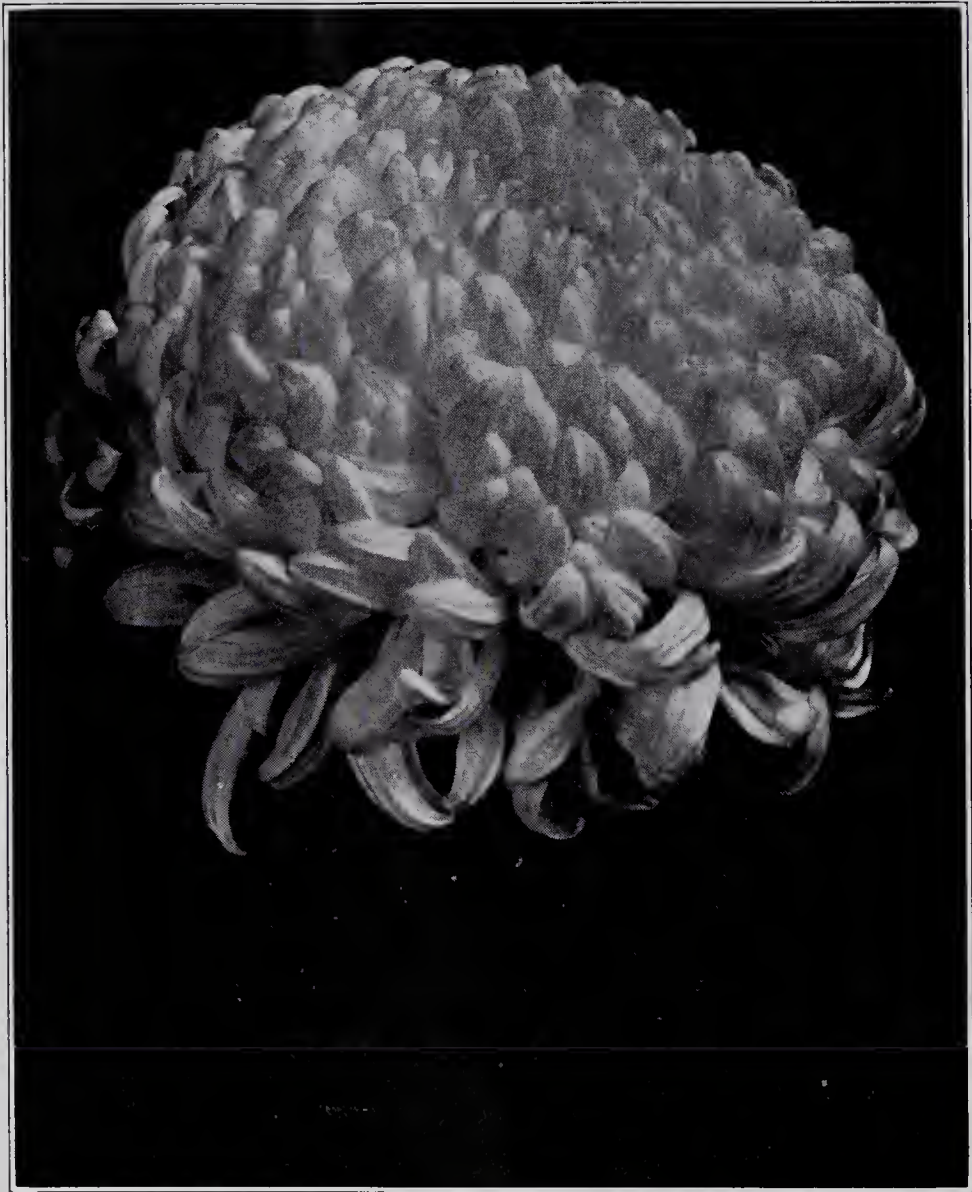

ANGELO. Light pink. Should be disbudded. Height, two and one-half to three feet. Matures October 25th.

BALL OF GOLD. Very perfect in form, two and one-half to three inches in diameter when disbudded. Color, bright yellow. Matures November 5th to 10th. Two and one-half feet tall.

BETTY WATKINS. Golden bronze. Flowers one and one-half inches in diameter. Matures November 15th to 25th.

BRONZITO. Double, perfectly formed flowers with dahlia-like petals. Color, red with old gold reverse, which produces a bronze effect. Height, three feet. Matures November 10th.

CAPT. COOK. Beautiful shade of old rose. Taller than the average pompon. Matures November 10th.

Marie De Petris

- CHICAGO PEARL. Fine white for Thanksgiving and later. May be disbudded or grown naturally.
- CHRISTMAS GOLD. Golden yellow button. Matures December 1st and later.
- CLORINDA. Produces erect sprays of an even shade of bronze. A good variety for Thanksgiving.
- CORA PECK BUHL. An excellent deep yellow pompon. Somewhat resembles Golden Climax in growth and form of flowers. Matures October 25th.
- DOROTHY TURNER. The color is a combination of bronze and old gold. Produces strong, wiry stems of an average height of 30 inches. Matures for Thanksgiving.
- ERMALINDA. Color, old rose with silvery sheen. One and three-quarter inches in diameter. Height, three and one-half feet. Matures October 25th.
- FLORA. Bright crimson with scarlet shading. The very best of the reds. Mid-season.
- FRANK WILCOX. Golden Bronze. Matures November 25th.
- GOLD COIN. A very bright yellow, large flowering pompon. When grown to sprays is two and one-half inches in diameter, and three and one-half when disbudded. Matures December 1st and later.
- GOLD MINE. Very bright yellow. One and one-quarter inches in diameter, and the true pompon type. Two feet in height. Matures October 25th.
- GOLD TIPS. The petal is light bronze and is tipped at the end with bright yellow. Blooms are a trifle larger than Nuggetts. It is medium in height, and blooms the third week in November. May be held for Thanksgiving.
- GOLDEN CLIMAX. Bright yellow of medium size and height. Matures November 15th.
- GOLDEN CREST. Bright, golden yellow, one and one-half inches in diameter. Matures November 1st.
- GOLDEN SCEPTRE. Bright yellow, one and three-quarters to two inches in diameter. Matures November 25th.
- HILDA CANNING. Small bronze. Fine for Thanksgiving.
- IDA. The very best yellow of its season. Plant this to follow Rodell. Matures October 15th.
- IRENE. Color, pure white. Upright, wiry stems. Height, three feet. Matures October 18th.
- IRIDESCENT. The color is a wonderful combination of the various shades of yellow and pink. Most effective just before it is fully

November Bronze

- matured when all the shades are at their height. A good grower, producing strong sprays. Matures October 15th.
- LEILAH. Exquisite shade of rose pink. Cannot be too highly recommended. Strong grower. Matures October 15th.
- LILAC. An improvement in color over Leilah. It is about eight inches taller, and more vigorous in general. Beautiful lavender pink with no variation of color as is seen in Leilah. Matures October 15th.
- LILLIAN DOTY. Beautiful shell pink. Height, two and one-half to three feet. Fine for disbudding. Matures the last of October.
- LORRAINE MEECH. Crimson with a golden bronze reverse, which produces a bronze effect. Matures November 20th to 30th.
- LUCINDA. The color is a bright, deep pink. Produces fine sprays of medium-size blooms. Matures November 12th to 20th.
- MIRAMAR. A fine bronze for disbudding. Flowers three to four inches in diameter. Height, three feet. Matures October 25th.
- MUSKOKA. Golden bronze. Should be disbudded. Produces six to ten flower to the plant, three and one-half to four inches in diameter. Height, three and one-half feet. Matures November 10th.
- NEW YORK. Golden bronze. Extra good. Matures November 10th.
- NORINE. A seedling from Christmas Gold. The same shade of yellow, but is larger, one and one-quarter inches in diameter. Matures November 25th.
- NOVEMBER BRONZE. A sister to Dorothy Turner, but matures earlier in November. A combination of bronze and Calendula orange. Flowers two and one-half inches in diameter. The buds are nicely placed for perfect development.
- NUGGETTS. The best yellow for November 1st.
- OLIVIA. Late pink pompon. Not ready to cut until December 1st and continuing until the 15th.
- PAGOSA. A late, dark pink pompon much the same color as Thanksgiving Pink. Matures December 5th.
- PINK DOT. Blush white with a deep pink center. Matures October 25th.
- RED BEU. Brilliant red with golden reverse. Matures for Thanksgiving.
- RED DOTY. Wine red with silvery reverse. Matures November 1st.
- RODELL. An early yellow pompon about the same color as Mrs. Tricker, but is more double. Matures October 10th.
- ROSE CHARM. Bright rose pink. Fine for disbudding. When grown naturally, it produces perfect sprays of ball-shaped flowers. Matures last week in October.

ROWENA. A medium shade of bronze. Strong upright growth of two and one-half to three feet. Matures for Thanksgiving and later.

SILVER BALL. Very pure white, and perfect in form. It is much earlier than White Doty. Should be disbudded. Matures October 12th.

SILVER TIPS. Bright pink with silver tip at the end of each petal. Gives a fine yield, and is an unusually good keeper. Matures November 10th.

UNALGA. An intense yellow, even brighter than Christmas Gold. It may be grown naturally to sprays, or disbudded. Matures November 25th.

VARSITY. Light yellow button. Matures November 10th.

WESTERN BEAUTY. A good late pink. Matures November 20th.

WHITE CAPS. Pure white. Matures November 1st.

WHITE DOTY. Pure white sport of Lillian Doty. Identical in every respect except color.

WHITE WINGS. Snow white. Flowers beautifully formed on long stems. Best when partially disbudded. Matures October 1st.

YELLOW FELLOW. Produces fine sprays of clear yellow blooms of the large pompon type. Matures November 10th.

YELLOW YULETIDE. Yellow sport of Yuletide.

YULETIDE. The latest and best white pompon known.

ZORA. The earliest good yellow pompon. Matures October 15th.

Rooted cuttings, \$3.00 per hundred; \$25.00 per thousand.
250 of one variety at the thousand rate.

Anemones

BELLINGHAM. Color, very delicate pink ray florets, with a high rounded cushion which is slightly lighter in color. Best when disbudded. Matures November 1st.

BERNEITA. Ray florets shell pink, and a perfect white cushion two and one-half inches in diameter. Matures October 25th. Admirably adapted to pot culture, as it is of dwarf habit. Should be disbudded.

BLANCHE. One of the largest anemones. Snow-white, and very perfect in form.

- FLORADORA. An anemone with very large full orange cushion and light bronze ray florets. Dwarf and excellent for pot culture.
- GARZA SUPREME. The well-known white. Matures in December and later.
- GODFREY'S PERFECTION. A pure white anemone. Dwarf. Matures for Thanksgiving.
- GOLDEN LIDA THOMAS. A golden sport of Lida Thomas. Matures for Thanksgiving.
- GOLDEN STATE. A self-colored yellow about the same shade as Florera. Six inches in diameter with four and one-half inch cushion. Should be disbudded. Matures November 1st.
- NORMA. A large-flowering, orchid-pink anemone, with a golden pink cushion. When grown four to six stems to the plant, and one bud to the stem, the flowers will average four to five inches in diameter. Matures November 20th.
- PETER PEARSON. In general character and color is much the same as Berneita, but a month later. Ten or twelve rows of light pink ray florets and a high rounded cushion of light yellow. For best color do not select bud until the end of September. Matures December 1st.
- ROSE ROYAL. Another fine anemone. Rather distinct in color, being a violet rose throughout. Should be disbudded. Matures November 1st.
- SUNSHINE. An intense yellow anemone. Matures November 15th to December 1st.

Rooted cuttings, \$3.00 per hundred; \$25.00 per thousand.
250 of one variety at the thousand rate.

Singles

- BRONZE BUCKINGHAM. A bronze sport of Mrs. Wm. Buckingham. Matures October 25th.
- BRONZE GODFREY. Bronze with a silvery reverse to the petals. A sport of Mrs. E. D. Godfrey. Matures November 28th.
- CHARTER OAK. An excellent yellow single. Matures November 25th.
- DUSKY MAID. A large, golden bronze single. Matures November 25th.
- GOLDEN MENSA. A yellow sport of Mensa. Matures November 25th.
- GOLDEN ORIOLE. The earliest single yellow, maturing October 10th. Flowers two and one-half inches in diameter.

MARGUERITE WAITE. A clear, deep pink sport of Mrs. E. D. Godfrey. Matures November 28th.

MENSA. One of the largest single whites. Good producer. Matures November 15th.

MRS. E. D. GODFREY. Light pink. Very strong grower. Matures November 28th.

MRS. WM. BUCKINGHAM. A large, flat flower of a lovely shade of pink. Matures October 25th.

MURRAY HILL BEAUTY. Sport of Marguerite Waite. More double than Godfrey, having three rows of petals. Old rose in color. Matures November 25th.

Rooted cuttings, \$3.00 per hundred; \$25.00 per thousand.
250 of one variety at the thousand rate.

Special Offer

We will supply a thousand, or more, rooted cuttings, our selection of varieties, at \$22.50 per thousand. This assortment will include 10 varieties of 100 each to the thousand. You may specify either mums. or pompons.
